

TELL MDOT!

NO LUXURY LANES ON 1-270/I-495!

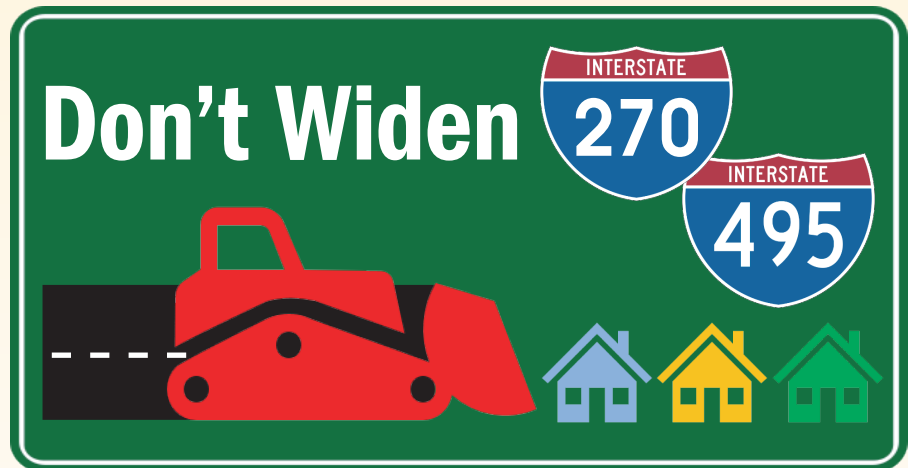

- ▶ **Worsen rush hour** on I-270 north.
- ▶ **Impact** 1,500 homes and **destroy** 34.
- ▶ **Increase** air and water **pollution**, global warming gases.
- ▶ Cause **4-5 years of construction misery** in any single location.
- ▶ **Invalidate** dozens of parks.
- ▶ **Destroy** nearly 1,500 acres of **forest canopy**.
- ▶ **Put taxpayers** and WSSC customers **at risk for 50 years**.

NOVEMBER 9 is the deadline to send the Maryland Dept. of Transportation (MDOT) your comments on its draft environmental impact statement (DEIS) for its \$11 billion plan to add private toll lanes to I-270/I-495. The DEIS shows that:

- ▶ Traffic jams on I-270 north will be **WORSE**.
- ▶ Taxpayers must subsidize the tollway contractor and pay up to \$2 billion to move water and sewer lines.
- ▶ The project steals park land and is bad for our air, water and climate.

Your comments are important.

Tell MDOT you OPPOSE this huge boondoggle and demand transportation that protects our communities, environment and wallets.

Find out how to make your voice heard at
